Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The 112 and 102(e) rejections are withdrawn.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 28-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 5,877,103 to Dupont et al. in view of USPN 6,068,914 to Boire et al., USPN 6,103,650 to Krumwiede, USPN 5,989,717 to Allemand et al., and GB 2,302,1010 to Hannotiau et al.
4. The 103(a) rejection is maintained for reasons of records and may be found in a prior office action dated Oct. 24, 2002, Paper No. 7.
5. Regarding the new limitation, addressing the emissivity of less than 0.3, this has previously been addressed in the prior Office Action, and the reference reads on this limitation because the same composition is used and would hence produce an emissivity of less than 0.3.

Response to Arguments

1. Applicant's arguments filed 4/28/03 have been fully considered but they are not persuasive.
2. In response to applicant's argument that Allemand appears to be an entirely different type of device for electrolytes and electrical conductors, the fact that applicant has recognized another

Art Unit: 1774

advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985). Allemand is used to show fluorine-doped oxide, WO₃, Ta₂O₅, Nb₂O₅, and V₂O₅ are well known additives to a soda-lime glass for effecting light transmission and inhibiting reflected color. Since the same materials are taught, naturally an emissivity value of less than 0.3 will follow. Motivation exists to combine Allemand since all references address glass modifications. Applicant is only claiming glazing and not a certain type of device.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
